This request is search-focused. We should be using whatever endpoint Super Search uses to find posts. If Super Search isn't picking up the posts then improvements should be made there. I can imagine we'll want to do more like this so we should improve not reinvent. On that note if we start doing a lot of these emails let's monitor for when it becomes too much to handle, then work with CMS or Search team to build in to their product.

Dao - What team owns Super Search?

Hey Alan,

I can't find anything with these words/phrases. Do you have a post in mind that uses them? If you send that over that might help me figure out where else to look.

Best,  
Dara

Hey Arun

That's great, I don't suppose you're able to search for those terms in picture captions are you? That's where they'll likely be.

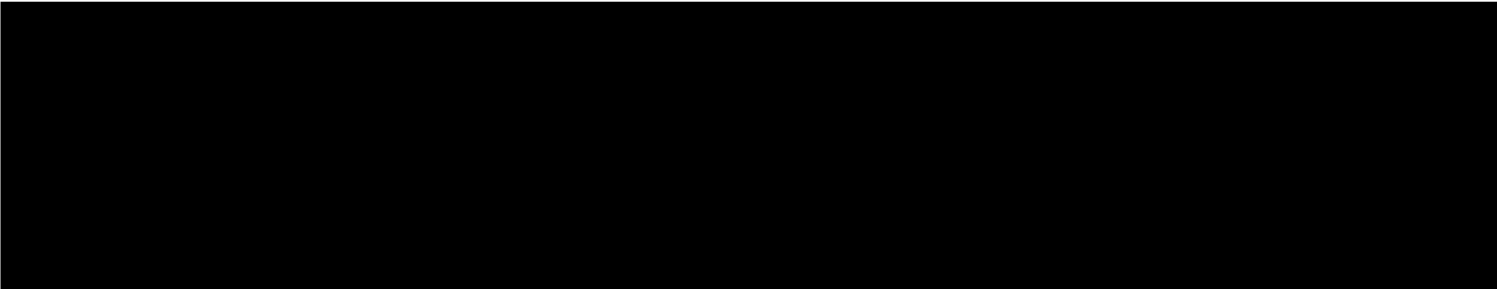

Thanks

Hi Alan,

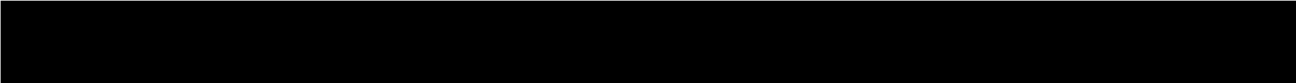

We queried our db for any posts with "Central European News", "Europics", and "CEN" in the title, description, or blurb and came up with nothing. Were you able to find any posts using the super search? Just want to make sure we're not missing anything here.

Let me know if you have any questions.

Hey

Would it be possible for you to send me links to every BuzzFeed story featuring the words -

Central European News  
Europics  
CEN

Thanks
