Asked around, and most people haven 't heard of it. A friend of my mom 's, however, has read their articles and trusts them as a news source? At least considers them "legitimate "on some level. Hope that helps!

Hey!

I've never heard of the site, so can 't say too much, but I'll ask around to get a better sense. Will let you know!

Hey Tanya

So since we started doing this investigation MailOnline has started linking out to a site called People 's Daily Online

Warning - this one is super grim

Do you know anything about the site CEN is seemingly in partnership with? Are they reputable?
